

## Westin Winemaker Dinner Series 2012

it is our pleasure to share with you the line up for this year's wine dinner series at the Westin Casuarina Resort & Spa.

We have collected a diverse range of wines from around the globe to showcase for you this year and think that you will be happy with the lineup.

If you have not experienced a Westin wine dinner before, we can assure you that the experience will be unique. Ours are a more intimate affair where the winery representative visits to talk about the wines and pairings at your leisure. Personal attention is what we are all about and we like to carry this philosophy over to our wine dinners
